11 REASONS TO DO A SEACAP
A Sustainable Energy Access and Climate Action Plan will help your local government to:

- **STRENGTHEN** your commitment to climate action
- **MAINSTREAM** climate into city planning
- **UNDERSTAND** where you are now with baseline studies
- **PRIORITISE** climate and energy projects
- **ACCESS** funders and financiers
- **EXCHANGE** knowledge and experience with cities and experts
- **INCREASE** access to sustainable energy
- **UNLOCK** climate finance to implement projects
- **REDUCE** future spending related to climate change impacts
- **SHAPE** the future of African cities
- **ACT** efficiently and effectively on climate change to create an inclusive, healthy, resilient city
